

MaRina, This is the moment

When you try from the bottom of your heart
Everytime, when you lose and nobody's on your side it's fine

I got that feeling that we hit the horizon
I got the feeling in my
The feeling in my bones
So get your head up we can cross every river
And get your self together
You're not alone

Now I believe in
Power of giving
So we can share our love
Let's get together
Nothing else matters
This is the time to shine

(Oooh) This is the moment
(Oooh) This is the moment
Don't give up on it
You have dreamt of it all your life
This is your moment
You need to own it and must try
This is your time

V2

I got the feeling we should take a risk cause is worth it
This is our life
This is our story
So write it down exactly how you really want it
Let's fight as one
Stronger than ever

Now I believe in
Power of giving
So we can share our love
Let's get together
Nothing else matters
This is the time to try

(Oooh) This is the moment
(Oooh) This is the moment
Don't give up on it
You have dreamt of it all your life
This is your moment
You need to own it and must try
To reach for the stars
To reach for the stars
This is your time
