

Mario, Never

Girl U wanna know whats up
I can trully say that I love u
And we know that love is not puffed up
So there are things in love that u'll never do
I will never jump off a building and survive
And if that building was burning up i will never leave u inside
I will would probably never live to see a hundred years old
And no matter who's around I will never treat u cold

I will never..lie to u baby boo
I will never..treat u untrue

they say never...say what u wouldnt do
I can say ill never....I would never hurt u

So u wanna be made to cure
Never give your heart unless u were sure
Just wanna know where am I
Me leaving u girl
Never that
that I could never fight a hundred men and win
And ill never know the beauty of a girl and a friend
They say never say what u wouldnt do
But they never been in love with a girl like u
