

# Mario Winans, Love Is In The Air

When I talk to you my love  
I like it when you understand  
When you want me close to you  
I like to be as close as I can  
Wherever we go together  
This is how I wish it would be  
If I would speak and a word it all  
They would know that you're in love with me

Cause I've had  
Long days, cold nights  
Need love to make me feel right  
Long walks goin' nowhere  
Doesn't matter as long as you're there  
Long days, cold nights  
Need love to make me feel right  
Long walks goin' nowhere  
Doesn't matter as long as you're there

It's been a while  
Since I've had someone to care  
Now the wait is over  
Cause I feel love is in the air  
It's been a while  
Since I've had someone to care  
Now the wait is over  
You know love is in the air

I'm closin' in on a special love  
And nothing's gonna get me down  
I wanna share everything with you  
I enjoy having you around  
Whatever goes on with me  
There would never be a thing to lie  
Rough times don't seem to turn back  
When I know that you are by my side

Cause I've had  
Long days, cold nights  
Need love to make me feel right  
Long walks goin' nowhere  
Doesn't matter as long as you're there  
Long days, cold nights  
Need love to make me feel right  
Long walks goin' nowhere  
Doesn't matter as long as you're there

It's been a while  
Since I've had someone to care  
Now the wait is over  
Cause I feel love is in the air  
It's been a while  
Since I've had someone to care  
Now the wait is over  
You know love is in the air

It's been a while  
Time pass by so slow  
Girl I wanna let you know  
Anything is possible  
I love you so  
I love you so
