

# Marion Raven, Let Me Introduce Yourself

You got everything that I want  
You got him in the palm of your hand  
But I know you've slept with everyone in his band  
Again again again

You try to pretend we get along  
But pretty little girl, you got it all wrong  
I've got my eyes on you and I know what's going on  
And on the fight's begun

[Chorus :]  
I'm not blind you see  
And you're not fooling me  
You've stepped into my territory  
Let me introduce myself  
(Your enemy)

He would be shocked if he knew what I found out  
The canzonet that you play would get a different sound  
You lied about your BC to keep him around  
Around around around we go

[Chorus]  
(Your reality)

Oh no what have you  
Gotten yourself into?  
But to be honest  
I don't give a Ah! about you  
You  
You

I'm not blind you see  
And you're not fooling me  
No I won't let you be  
Cuz you're not folling me  
You've stepped into my territory  
Let me introduce myself  
Your morality

[Chorus]  
(His fantasy)
