

Marion, The Smile

Got to make headway
Cut yourself free
Make us laugh again, then
Help you spend more money
Now how do you feel
Forget about up there
And the share
For your now in exile
From this place you know as misery
Were not composed enough to stay
And you expose us when you say
Were all smiles
When you need me
Lights down, I'll help you spend some
More money
Now how can you feel
Forget about up there
And her (stares)?
And now your missing
This place you know as misery
Because you know
You know how that feels
Were not composed enough to stay
And you expose us when you say
Were all smiles
Were not composed enough to stay
And you expose us when you say
Were all smiles
When you need me
It's funny seeing you warming to it
You've lost yourself again
And you just had to go down
To rise back higher
And you have got to stay in and around
Were not composed enough to stay
And you expose us when you say
Were all smiles
In the smile
In the smile
When will you need me
Need me
When will you need me
Need me
When will you need me
