

Marius feat. Giulia, Rain

Standing in the rain
Calling at your name
Life is not the same
Without you
Stars are brightly shinning in the sky
Friends are sitting quiet side by side
Lovers walking hand in hand together
Here we are alone and out of time
Standing in the rain
Calling at your name
Life is not the same
Without you
Is it love that keeps us all alive?
Do we search for soulmates all our life?
Can we ask the sun to shine forever?
Does it have to be all black and white?
Standing in the rain
Calling at your name
Life is not the same
Without you
