

Marius Nedelcu feat. Cabron, Never be

So unhappy but I decided to lie
The truth was too much for my mothers pride
Cause she was so young, so blind to see
Im drifting away like a boat on the sea
Drowning her sorrow in a glass of Champaign
And I suddenly I was the one to blame
For all the mistakes she has done in the past
I missed out so much growing too fast
I will always be torned by memories of a childhood dream
Forever she will regret the mother she could have been
He will never again be there for me when I turn 18
If we could see, well never be, a family
Walked out of my life when I was 6 years old
My father was nothing but distant and cold
As fast as the day goes from dust till dawn
He walked out the door and never came home
Nothing has changed as the time has gone by
Im still a mistake in my fathers life
Few years ago, when the cards have been played
He reached out to me, but it was too late...
