

Mark Lind, Love Song

Give me something to lean on
I'll give you everything I have
And I'll give you something to lean on too
Something that you've never had
We're stumbling in the darkness
The darkness of this cold hard land
But I'll hold on tight and I'll lead the way
If you'll just give me your hand
And I'll love you a life time through
Give me something to count on
Baby, give me your word.
And I'll give you something to count on too
My life, my heart, my world
And I'll love you a life time through
I could love you a lifetime through
We're just two wounded soldiers here
Maybe if we fixed our wings we'd fly right out of here
Give me something to lean on
I'll give you everything I have
And I'll give you something to lean on too
Something that you've never had
And I'll love you a life time through
I could love you a lifetime through
