

# Mark Medlock, Can't Forget This Night

I want you to want me,  
Theres no one else for me but you and I  
This dream will never die.  
I miss you, I need you,  
And cant forget you, baby  
You and I, there is a reason why  
I could never smile if you dont give a try,  
You and I, were a team.  
I cant forget this night, when you looked at me love,  
Cant forget your eyes, cant forget your whisper.  
If your heart will tell, baby, how you feel when you look at me like this?  
I want you to know me,  
I still believe in you, just you and I,  
We are flying one mile high  
I wish you could be here.  
Ill always be in love with you and I,  
There is no goodbye,  
Never let you go, baby, oh, we fast will know  
You and I, were a team.  
I cant forget this night, when you looked at me, love,  
Cant forget your eyes, cant forget your whisper.  
If your heart will tell, baby, how you feel when you look at me like this?  
I cant forget this night, oh, there is no one else for me tonight.  
I cant forget this only night, when you look at me like this like this.
