

# Mark Medlock, Feels Like The First Time

Like in old time movie you give love all just to me,  
When we fly on broken wings, you are my everything.  
Like an angel calls tomorrow, like a kiss with no sorrows,  
And whatever you will be, youre my destiny.  
You can run but you cant hide away from me.  
Our love it feels so good as mystery.  
Ill never leave you and Im dreaming:

Chorus:

Feels like the first time, your love will be mine.  
Can I live without your love? Oh, I feel that I cant get enough,  
See what this great love can do.  
All these dreams last forever, and I stay with you together,  
You are always on my mind till the edge of time.  
Every time when you touch me, its like a storm in the movie,  
Listen to your heart and see, love is always free.  
Youre like a child and like a fire, too. Our love is like a secret rendezvous.  
Ill never leave you, and Im dreaming:

Chorus:

Feels like the first time, your love will be mine.  
Can I live without your love? Oh, I feel that I cant get enough,  
See what this great love can do.

Chorus:

Feels like the first time, your love will be mine.  
Can I live without your love? Oh, I feel that I cant get enough,  
See what this great love can do.  
Like an old time movie you give love just to me like the first time.
