

Marlon Roudette, Everybody Feeling Something (

Hey, now let me tell you something
We got the place erupting
We got the place erupting,
This is the mood we wanting
Everybody feeling something
We got the place erupting, erupting

Street light feeds my soul
Can't let go, feels like home
Feels like a melody that's tryina break out of me
Smoke rise free mount high, we catch light
The sound feels right
Works like a remedy
I feel it healing me,

And it's the only way I want
I'm always close, I'm never far
I wanna hear your every thought, I
You taught me how to love
You got me whole

Hey, now let me tell you something
We got the place erupting
We got the place erupting,
This is the mood we wanting
Everybody feeling something
We got the place erupting, erupting

Street lights keep that glow
Kingston roads, are in my bones
I reach out in front of me
I say I don't wanna leave, no
Smoke rise free mount high, we catch light
The sound feels right
Works like a remedy
I feel it healing me,

Hey, now let me tell you something
We got the place erupting
We got the place erupting,
This is the mood we wanting
Everybody feeling something
We got the place erupting, erupting

And it's the only way I want
I'm always close, I'm never far
I wanna hear your every thought, I
You taught me how to love
You got me whole

I feel it healing me /4x

Hey, now let me tell you something
We got the place erupting
We got the place erupting,
This is the mood we wanting
Everybody feeling something
We got the place erupting, erupting

And it's the only way I want
I'm always close, I'm never far
I wanna hear your every thought, I
You taught me how to love
You got me whole
