

Maroon 5, Cold

[Adam]

Cold enough to chill my bones
It feels like I don't know you anymore
I don't understand why you're so cold to me
With every breath you breathe
I see there's something going on
I don't understand why you're so cold

Are we taking time or a time out?
I can't take the in between
Asking me for space here in my house
You know how to fuck with me
Acting like we're not together
After everything that we've been through
Sleeping up under the covers
How am I so far away from you?
Distant when we're kissing
Feel so different
Baby tell me how did you get so...

Cold enough to chill my bones
It feels like I don't know you anymore
I don't understand why you're so cold to me
With every breath you breathe
I see there's something going on
I don't understand why you're so cold, yeah
Woah yeah
Woah yeah
I don't understand why you're so cold

What you holdin' on, holdin' on for?
If you wanna leave just leave
Why you wanna bite your tongue for?
The silence is killing me
Acting like we're not together
If you don't want this, then what's the use?
Sleeping up under the covers
How am I so far away from you?
Distant (oh) when we're kissing (yeah)
Feel so different (yeah)
Baby tell me how did you get so...

Cold enough to chill my bones
It feels like I don't know you anymore
I don't understand why you're so cold to me
With every breath you breathe
I see there's something going on
I don't understand why you're so cold, yeah
Woah, yeah
Woah, yeah
I don't understand why you're so cold, yeah
So fuck this cold world
Woah, yeah
So fuck this cold world
Woah, yeah
So fuck this cold world
I don't understand why you're so cold

[Future]

Never thought that you were like this
I took the tag off and made you priceless
I just spent half a mill' on a chandelier
Now you tryna cut me off like a light switch, yeah
Tryna stay, and I leave

Saying that you need some time to breath
Thinking that I'm sleeping on the four letter word
But the four letter word don't sleep
We goin' two separate ways
You ain't been actin' the same
You gotta go, but where your heart used to be
You gold dig every day
I switched the four door to the two door
'Cause I can't let my driver hear what you say
Girl I tried to give you space

[Adam]
Baby tell me how did you get so

Cold enough to chill my bones
It feels like I don't know you anymore
I don't understand why you're so cold to me
With every breath you breathe
I see there's something going on
I don't understand why you're so cold

[Future/Adam]
So fuck this cold world
Woah, yeah
So fuck this cold world
Woah, yeah
So fuck this cold world
I don't understand why you're so cold, yeah
So fuck this cold world
Woah, yeah
So fuck this cold world
Woah, yeah
So fuck this cold world
I don't understand why you're so cold
