## Maroon 5, Little Of Your Time

I'm sick of picking the pieces
And second-guessing my reasons
Why you don't trust me
Why must we do this to one another?

We are just passionate lovers With trouble under the covers Nothing worse than when You know that it's over

I just need a little of your time A little of your time To say the words I never said I Just need a little of your time A little of your time To show you that I am not dead

Please don't leave, stay in bed Touch my body instead Gonna make you feel it Can you still feel it? Gonna make you feel it Can you still feel it?

Well I got nothing to hide Dip down and come for a ride Embrace a devil, so sly You cannot hear 'em coming

Cause my defenses are weak I have no breath left to speak So take the evidence And bury it somewhere

I just need a little of your time A little of your time To say the words I never said I just need a little of your time A little of your time To show you that I am not dead

Please don't leave, stay in bed Touch my body instead Gonna make you feel it Can you still feel it? Gonna make you feel it Can you still feel it?

Oh my, I don't mind
Being the other guy
Nice try, for these games
I do not have the time
If you want me, call me
Come and take a risk
Kiss me somewhere deep below the surface

I just need a little of your time A little of your time To say the words I never said I just need a little of your time A little of your time To show you that I am not dead

Please don't leave, stay in bed

Touch my body instead Gonna make you feel it Can you still feel it? Gonna make you feel it Can you still feel it? Gonna make you feel it Can you still feel it? Gonna make you feel it Can you still feel it?
