

# Marque, Your symphony

Lady won't you play me your symphony?  
Be the melody I need to sing  
Beat me  
Hate me but care for me  
You'll ease my pain  
We are lonely, lonely friends  
And we know  
We believed that there's no end  
But we go  
We are lonely, lonely friends  
And we see  
Our picture is falling out of frame  
Hate me  
break me  
Time to leave  
We can't spend more moments on our own  
Rainy dreadful, no harmony  
One day you will find out I'm gone  
Did your mouth tell me the truth?  
When your heart was not in use  
To be my home  
We are lonely, lonely friends  
And we know  
We believed that there's no end  
We are lonely, lonely friends  
And we see  
That our picture  
And you brightened up my day  
Now I try to keep away  
You better leave me here alone  
Lady won't you play me your symphony?  
Be the melody I need to sing  
Beat me  
Hate me but care for me  
You'll ease my pain
