

Martijn Ten Velden, I wish you would

This is the morning after the night before
I'm laying on my bed and I want more
And if you're asking me to stay with you
If you want me here I'll stay with you
I hope you have me have my way with you
Won't you ask me to lay with you
By the way I wish you would, just ask me
By the way I wish you would, I wish you would
Well come with me, I wish you could, I wish you could
By the way I wish you would, I wish you would
Be with me
It's you I want...
