

Martin Englert, Follow Generation

Cosplay
Just All day
Spoken change overnight
We don't need to feel the fack

Cosplay
Just All day
AI taking off the gods
All We need is follow back

You can be who you want
and don't care about the worth
cause the future changes this world

Every bright neon sign
turned the people into stars
cause they're wearing masks

It's obvious,
there exist another worlds
You can choose
Anything You want

But one day
emerging from a dream
You'll realize
That people need exist

Cosplay
