

# Martin Garrix, Dont Look Down (ft. Usher)

Is your head spinning?  
Is your heart racing?  
Is the fire in your veins?  
Are your bones burning?  
Is your skin yearning?  
'Cause you're driving me insane  
I kinda feel like I feel like a summer light  
You got me waiting up a thousand miles  
Can we stay right here in the sand  
Must feel like we're flying out in space

Don't look down  
Off this high will never hit the ground  
Don't look down  
See that the sky we're gonna reach it now  
Do you feel the lightning inside of you  
Will you follow through if I fall for you  
Don't look down  
Off this high will never hit the ground

Are your hands shaking?  
Are your fears breaking?  
Are you climbing all the walls?  
All the time changing, is the noise fading?  
'Cause I wanna get it all

I kinda feel like I feel like a summer light  
You got me waiting up a thousand miles  
Can we stay right here in the sand  
Must feel or are you afraid to fall?

Don't look down  
Off this high will never hit the ground  
Don't look down  
See that the sky we're gonna reach it now  
Do you feel the lightning inside of you  
Will you follow through if I fall for you  
Don't look down  
Off this high will never hit the ground

Don't look down

Do you feel the lightning inside of you  
Will you follow through if I fall for you  
Don't look down  
Off this high will never hit the ground
