

Marty Robbins, Crawling On My Knees

Is there anything that I can do to bring you back to me again
If there's anything you want from me tell me what tell me when
I've done everything a man can do how many time have I said please
Ya got me down go on and kick me you got me crawlin' on my knees
[guitar]
If there's something I can do to prove beyond a doubt my love's sincere
Is hate so strong you're overlooking eyes that's filled with love and tears
Is this really how you want it and if it puts your heart at ease
Ya got me down go on and kick me you got me crawlin' on my knees on my knees
