## Marty Robbins, Only A Picture Stops Time

I looked at the pictures of you and I Taken before your love for me died And I relive the moments when you were mine 'Cause only a picture stops time

I live in the present and look at the past I have no future, your love didn't last But I keep your picture so I won't lose my mind 'Cause only a picture stops time

Each heartbeat reminds me that we're far apart Though I hold your picture so close to my heart

So I'll have a moment with you now and then Since you once loved me I know you'll understand Why I keep your picture, I hope you kept mine 'Cause only a picture stops time
