

Marty Robbins, Turn the Lights Down Low (Colum

Turn the lights down low let your feelins go
Now's the time when dreams come driftin' in
Turn the Hi-Fi on play that certain song
One that brings the memories back again

Things that might have been
If you kept our love closer to your heart
Safe from other lips that tore it all apart
Then I wouldn't hide teardrops deep inside
Dream along when lights are turned down low
And dream along when lights are turned down low
When lights are turned down low
