

Marty Robbins, Woman Gets Her Way

(Woman gets her way most every time)

Man holds his head up high builds his castles to the skies
One kiss can bring him down make his foolish head go spinnin' around

Woman woman gets her way model man like a piece of clay
Even makes him like it fine woman gets her way most every time

Man makes the wheels go on cuts the cane and tills the ground
Then he gets his weekly pay woman spends it all in just one day

Woman woman gets her way...

[guitar]

There is no bigger fool than the man who thinks he rules
Little does he realize that he's just a slave to two brown eyes

Woman woman gets her way...

When I settle down someday and around me children play
I'll be king right from the start long as she will let me play the part

Woman woman gets her way...

Woman gets her way most every time

Woman gets her way most every time
