

# Marvelous 3, Cold As Hell

She took a light saber to my heart  
And she picked my brain with a pocket knife  
She said "say what's on your mind"  
So I said "I'm kinda hungry and I hate my life";

She said I was cold as hell  
But hell's not cold, I know  
I know cuz I've been there for the last half hour or so  
And the devil says it never snows

I guess I should wait awhile and see if the temperature changes  
I guess I should hang awhile and try on a few more faces for you  
She took me out on a shopping binge  
Cuz you thought I was hurting for some cooler clothes  
She said "Don't you wanna be all that?  
Like a Calvin Klein model in a video?"

She said I was cold as hell  
But hell's not cold, I know  
I know cuz I've been there for the last half hour or so  
And the devil said it never snows there
