Marvin Gaye, Forever

(Brian Holland/Lamont Dozier/Freddie Gorman)

Darlin', forever, forever You can break my heart Forever, if you want to I'll play the part of a fool Just to be with you forever

Forever, darling, forever You can taunt me Take my love for granted But I'll always be just a fool Just to be with you forever

I'll be your slave For the rest of my days Love you more in so many ways Just to be with you thrills me through and through

And darlin', forever, forever You can taunt me Take my love for granted But I'll always be just a fool Just to be with you forever

Forever, forever, I'll love you so [...and fade]
