

# Mary J. Blige, Gonna Breakthrough

If youve been stressin youve been hurtin its gonna be alright  
I know times get so hard that you can cry but not tonight  
I know just what you came for get up up on the dance floor  
Or where ever you are while the DJs breakin it down

[Chorus]

Aint no telling what were gonna do  
But Im gonna breakthrough and take you  
and take you where it feels so good  
Aint no telling what were gonna do  
But Im gonna breakthrough and take you  
and take you where it feels so good  
All I wanna do is get in touch with you  
To be real how you feel  
Everybody goes through things sometimes  
So let your mind just be free  
Anything you wanna be, be  
But whatever you do let this music get to you (get to you)

[Chorus]

Aint no telling what were gonna do  
But Im gonna breakthrough and take you  
and take you where it feels so good  
Aint no telling what were gonna do  
But Im gonna breakthrough and take you  
and take you where it feels so good  
We gonna tear it up (we gonna tear it up)  
All night listen till the morning light  
Something thats gonna sooth your mind  
Its gonna sooth your mind and make you feel so good  
Baby let your body free (body be anything you wanna be)  
Just let go and you will see
