

Mary Mary, I Try

Hook:

I try but sometimes I fail
Now I realize that I need your help
'Cause I can't make it all by myself
I need you, you, you!

I should know by now there's no way no how
I could live my life without you
Still I get caught up in myself
And talk to you less and less
And everytime that I do
I come right back to you
'Cause after all my mistakes
I know that I have to change
So I put my life in your hands

Hook:

I try but sometimes I fail
Now I realize that I need your help
'Cause I can't make it all by myself
I need you, you, you!

I wish I could undo something
That I have done in my past
But I can't erase what's already taken place
So from now on I'll try to do my best
'Cause after all my mistakes
I know that I have to change
So I put my life in your hands

Hook:

I try but sometimes I fail
Now I realize that I need your help
'Cause I can't make it all by myself
I need you, you, you!

Nobody wants to fall but we fall
Then you are there to catch us all
Every time you look beyond all my faults
'Cause you know I need another chance
To get it right you forgive me 'cause I try

Hook

I try but sometimes I fail
Now I realize that I need your help
'Cause I can't make it all by myself
I need you, you, you
