

# Massive Attack, Better Things

[Tracy Thorn]

Don't drag me down  
Just because you're down  
And just cause you're blue  
Don't make me too  
And though you've found  
You need more than me  
Don't talk to me  
About being free

That's freedom without love  
And magic without love  
Magic without love

Hear me say  
Better things will surely come our way  
Hear me say  
Better things will surely come our way

You say the magic's gone  
Well i'm not a magician  
You say the spark's gone  
Well get an electrician  
And save your line about needing to be free  
All that's bullshit babe  
You just want rid of me

You want freedom without love  
And magic without love  
Magic without love  
Yeah

Hear me say  
Better things will surely come my way  
Hear me say  
Better things will surely come my way
