## Mastodon, Colony Of Birchmen

This forest is growing faster than I can tell Cell structure eats away at a massive swell Seems however I'm a victim of circumstance

Hunt for ogres and dwarfs

Lion slicer

Run with death

Run with death

White faces coming closer with every step

Earth envelopes taking breath without happenstance

Carve my teeth out ripping through the sheep's head curse

Hunter gatherer

Ridden from the cave

Run with death

Run with death

Gone away

My heart's gone away

Táking everything

My heart's gone away

Take it now

Hunt for ogres and dwarfs

Lion slicer

Run with death

Run with death

Gone away

My heart's gone away

Taking everything

My heart's gone away

Take it now
