

# Mastodon, The Wolf Is Loose

The hero of the gods  
The crossing of the threshold  
The belly of the whale  
Refusal of return  
Hollow eyes  
Dry pale legs  
Howling on  
Through fields and graves  
Language of the signs  
Symbols to our sight  
Guardian to thy throne  
Take on form  
Daylight  
Hide the skin  
Cut it off  
Scatter ash in the wind  
Shapeshifter rolling on winds of tyrants make  
Fierce lore of fanged horn  
Danger all the way  
Night's sea reflection  
The faces of bodies slain  
Returning to the form of natural human's fate  
Grown from the cold  
Spirits unclean  
Dealer of the days  
The ice will thaw  
As the soldier walks through the crimson side  
Researchers of aftermath  
Dispelling disarming man  
One-toed horses subject of Genesis  
And the immigrants  
Fundamental side of a human mind  
Hulder folk and fairies  
So believe  
The hero of the gods  
The crossing of the threshold  
The belly of the whale  
Refusal of return
