

# Matt Dusk, Good News

I'm here, It's clear  
I'm in the moment  
Back with a better view  
Not a clue, where I'm going  
But going all out for you  
Tomorrow's not promised  
What the wise man used to say  
So let's seize each day  
No ties, we're just happy-go-lucky  
Don't you blow the surprise  
So nice, like I told you  
When I hold you

It's like falling in love for the first time  
It's like waking up fresh in the sunshine  
Like having nothing to lose  
Baby you're good news, you're good news  
It's like dancing all night 'til the light's gone  
It's like singing along to your favourite song  
It never gets old with you  
Baby you're good news, you're good news!  
You can come as you like  
As you want to  
Love's revolving door  
Let it spin, let me want you  
I want you to come back for more  
Now easily we could be madly in lust for life  
But baby why ask why?

No ties, we're just happy-go-lucky  
Don't you blow the surprise  
So nice, like I told you  
When I hold you  
It's like falling in love for the first time  
It's like waking up fresh in the sunshine  
Like having nothing to lose  
Baby you're good news, you're good news  
It's like dancing all night 'til the light's gone  
It's like singing along to your favourite song  
It never gets old with you  
Baby you're good news, you're good news!  
Now if you love something you've got to let it go  
If it comes back it's yours, and it means that much more

It's like falling in love for the first time  
It's like waking up fresh in the sunshine  
Like having nothing to lose  
Baby you're good news, you're good news  
It's like dancing all night 'til the light's gone  
It's like singing along to your favourite song  
It never gets old with you  
Baby you're good news, you're good news!

It's like falling in love for the first time  
It's like waking up fresh in the sunshine  
Like having nothing to lose  
Baby you're good news, you're good news  
It's like dancing all night 'til the light's gone  
It's like singing along to your favourite song  
It never gets old with you  
Baby you're good news, you're good news!
