

Matt Pond PA, Green Grass

look captured - but calm behind your eyes - why you try
you break my heart and i can't evolve
with nature - there's so much less to mind - why you lie
you break my heart and i can't evolve

on the green grass on the green grass
under starlight starlight

but this nature - has to be denied - why i try
and it breaks my heart - that i can't evolve
i've settled - i've given up desire - why i lie
and it breaks my heart - that i can't evolve

on the green grass on the green grass
under starlight starlight
