

Matt Pond PA, Measure Two

these are the words and they have been building
thermostats and light control
if the point goes on forever that's the only truth you know
let's just all turn down let's just all turn down off the marks

your books even they have an ending
that fears respect is all towards unknown
if you say you can't believe me
that's the only truth you know
let's just all turn down let's just all turn down off the mark down off the marks

the proving ground has been closed down
there's nothing here but quiet anymore

so popular to die for convictions
possibilities were banned from the fold
in the good parts your eyes stay shut
when it's bad you like to gloat
and all the voices are competing
all the voices steal the show
let's just all turn down
let's just all turn down off the marks
down off the marks
