

Matt Wertz, Capitol City

Listen close

The monuments are whispering your name

I'm standing strong

Knowing that we'll never be the same

It's getting hard to fake

CHORUS:

But as you go your own way

Remember, do not be afraid

because you're right where you should be

In Capitol City

Yeah, I know

There's better things right now for you than me

You're growing up

Those squinty eyes are just starting to see

Everything you need

BRIDGE:

Say the word

It's all I'd need

To catch a plane

Make you believe
