

Maureen McGovern, Sometime Soon

When I'm with you,
I need nothing more
Night's an open door
To forever
But I know, love,
When I'm far from home,
Every day alone
Seems a lifetime

But sometime soon, I'll be there
And I'll hold you
We'll make the light shine
Through the clouds
We'll make the sun sing
Right out loud
And we'll make the night smile
With the moon
Sometime soon
Sometime soon
Sometime soon

I feel stronger
When I think of you
And know we'll make it through
Till we're together
I can touch you
Although you're not here
Memory brings you nearer
Than the night is

Sometime soon, I'll be there
And I'll hold you
We'll make the light shine
Through the clouds
We'll make the sun sing
Right out loud
And we'll make the night smile
With the moon
Sometime soon
Sometime soon
Sometime soon

SAXOPHONE SOLO

And we'll make the night smile
With the moon
Sometime soon
Sometime soon
Sometime soon

Sometime soon
Sometime soon
