

# Max Frost, Nice and Slow

Girl you can trust I'm on my way  
I know you've come and called my name  
Don't stress my stride, no rush!  
I'm moving nice and slow  
/2x

I don't wanna think about the morning  
Sweating as I feel hot light  
I know when I wake you'll be gone  
We can only have this night I want to sin  
With you this last time  
You take me in you're reading my mind  
God its so real its so right  
I Have to go slow till i feel the times right

Girl you can trust I'm on my way  
I know you've come and called my name  
Don't stress my stride, no rush!  
I'm moving nice and slow  
/2x

The lamp that shows your face  
One last time for me  
Even the love in this embrace  
Will feel the ecstasy

Girl you can trust I'm on my way  
I know you've come and called my name  
Don't stress my stride, no rush!  
I'm moving nice and slow  
/2x

You've been a bad bad girl  
You've been a bad bad girl  
You've been a bad bad girl  
You've been a bad bad girl  
I will roll you nice and slow  
All night, all night
