

# Max Jason Mai, Don't close your eyes

God save me ...  
Hey, where is the way  
to heaven's hell  
That's what I ask  
When I feel broken...

Look around what's happening abounds  
And listen to the frequency of a sound  
Of the beat, of a heartbeat, of your death beat

Don't close your eyes  
And pray all the night  
Try to call all angels  
To save our lives

How do you feel now?  
After all fails in love  
Embraced by devil's arms  
Look around what's happening abounds  
And listen to the frequency of a sound  
Of the beat, of a heartbeat, of your death beat

Don't close your eyes  
And pray all the night  
Try to call all angels  
To save our lives

Let me get out of here  
Let me get out of here  
Let me get out of here  
Let me get out of here  
Save me ...

Don't close your eyes (Stay awake)  
And pray all the night (Say your prayer now)  
Try to call all angels (Angels above)  
To save our lives (Save our lives)  
Don't close your eyes (Don't close your eyes)  
To save our lives
