

Maxeen, Block Out The World

There's a clash of information between my ears
I'll shut OFF my eyes in hopes it disappears
Jammin' ideas down my throat
So I swallow the belief that we're on
Some secret roads
So I block out the world
With headphones on
It's the only thing I can do when I don't wanna talk to no one
Block out the world
With headphones on
It's my only escape
I'm losing you in trust but I can't help but feel
That what you say is not, it's not what's real
I wanna feel the case but the facts aren't straight
And if I think you're guilty, I won't participate
So I'll block out the world
With headphones on
It's the only thing I can do when I don't wanna talk to no one
Block out the world
With headphones on
It's my only escape
I'll block out the world
With headphones on
It's the only thing that works when I don't wanna talk to no one
Block out the world
With headphones on
'Cause I don't understand
Block out the radio
Block out the TV show
Block out these visions that trouble me so
I feel sick again
My blood is running thin
Digesting too much of your negative information
X2 (last line spoken)
Block out the world!
Block out the world!
Block out the world!
Block out the world
With headphones on
It's the only thing I can do when I don't wanna talk to no one
Block out the world
With headphones on
It's my only escape
Block out the world
With headphones on
It's the only thing that works when I don't wanna talk to no one
Block out the world
With headphones on
'Cause I don't understand
And what would happen if we all stopped buyin'
And to the fear that the selling is weak
These losers scratch their heads in confusion
This is how the strong become the meek
Block out the world!
Block out the world!
Block out the world!
Block
