

Maxwell, Everwanting: To Want You To Want

1 - Lay all night, here on top
If you want to
I'm giving you all I've got, every drop
Don't you want to

Minus my negative
Change what I thought I'd never
Spoke a kiss, verbal bliss
And I was made a much mo' better

Cause where you touched was such a no-no
A blushe filled plushe
I loved it oh so,
I love it oh so much
It's suiter than candy
Could all this lust be a symptom of you

Lay all night here on top if you want to
I'm giving you every drop
Don't you want to
Everwanting to want you to want

Burn the cold, take the snow
Make July out of December
Light the night in afterlife
And make this soul a much mo' better
Cause where you touched
How could you know
A blushe filled plushe
I love it oh so much,
Could all this lust be a symptom of you

Repeat 1

Everwanting to want you to want
