

Mazzy Star, It's A Shame

Hold a candle to my face
I just want to see the lights
You and me, we went our separate ways
And
We went driving in your car
And you took me by the hand
Now I don't know just where you are
I wanna ? ? my chance
I miss your smile
I kiss your face
I tell you good-bye
And it's a shame
Don't you wake me 'cause I'm not dreaming
I don't want to ? ? ? mistake? ?
I ain't to be nothing? ?

....
I miss your smile
I kiss your face
I'll tell you good-bye
But it's a shame
We went driving in your car
And you took me by the hand
Now I don't know just where you are
I wanna know ? ? my chance
I miss your smile
I kiss your face
I'll wish you alive
But it's a shame
It's a shame
