

# Mc 900 Foot Jesus, If I Only Had A Brain

Suppose I accidentally got my shit together  
Would I get a medal?  
Or a pat on the back and a little feather  
I could stick in my cap or pin it to my shirt  
Go out in the yard and poke it in the dirt  
Or leave it in the woods where it couldn't be found  
If it fell over, would it make a sound?  
And if it did, would it be the sound that you like?  
Or should I do it over until I get it right?

You say everything I know is wrong  
So do me a favor, and play along  
As the rusty gears turn  
Don't be alarmed if you smell something burning upstairs  
It's a little BB rolling around in a box car  
See us together

Maybe it wouldn't be hard to explain  
If I only had a brain

(chorus)  
Somewhere on a higher mental plain  
{Somewhere On A Higher mental plain}  
I might learn to come in from the rain  
{I might learn to come in from the rain}  
If I had a clue would I still be here with you?  
{If I had a clue would I still be here with you?}  
Gee whiz, if I only had a brain  
{Gee Whiz, If I only had a brain}

Who's that?  
Oh, my little friend cupid  
Wearing a shirt that says I'm with stupid  
Always nearby wherever I go  
He's looking out for me, don't you know

Mr. excitement, never in a rut  
Johnny on the spot with an arrow in the butt  
Ouch! I guess your love is true  
Now, if I could only get a clue

(chorus)  
Had A Brain  
Had a brain  
had a brain  
had a brain
