

# Mc Chris, Yacht Birds

Is she dope? Yep, ass in full effect, she walks into the room and all the guys come down with strep

Only thing I love more  
Than herb is the bird  
But my luck's kinda fucked  
It's a wonder that I flirt

But I do and I will  
'Cause I'm still just a nerd  
Ever been left behind  
Let me hear ya say word

Only thing I love more  
Than herb is the bird  
But my luck's kinda fucked  
It's a wonder that I flirt

But I do and I will  
'Cause I'm still just a nerd  
Ever been left behind  
Let me hear ya say word

She's a go getter, dressed in sweater, we watched Blackhawk down together, her name's Heather,

Only thing I love more  
Than herb is the bird  
But my luck's kinda fucked  
It's a wonder that I flirt

But I do and I will  
'Cause I'm still just a nerd  
Ever been left behind  
Let me hear ya say word

Her name was LB  
she was an actress  
I filled up her  
spaces like madlibs

way above average  
she was just a sad kid  
so I couldn't help  
but give the girl my address

she lived in Texas  
like to get messed up  
like to tease the boys  
so she always got dressed up

like to get in fights  
with the truckers at the rest stops  
she was top notch  
and her bod was the best part

fan of mine, summer time  
dropping me a line  
sounded kinda cute  
couldn't help but reply

chilling in her pool  
squinting at the sky  
cell phone rings  
MC Chris says hi

soon we're talking everyday  
flirtin' up a storm  
plans to road trip  
I say word is born

and my mind's set on porn  
and I think I'm gonna score  
I get down on all fours  
start scrubbing all the floors

then I get all nervous  
that an accident is imminent  
never have a chance to relax  
and get intimate

arrives at my drive  
I sigh, get all shy  
so we all get all high  
walk down to Little Five

do a shot, buy some pot  
take a seat on the street  
she's cute and she's nice  
and she's hot and she's sweet

and she makes the first move  
'cause I'm set on defeat  
then I tongue lap her flaps  
'til she snaps and she screams

and she just leaves  
and I'm kinda relieved  
no OD's, VD's  
hearts on my sleeve

not a stalker just a talker  
ass tight as weave  
once a newbie now a groupie  
double clickin' on me

Only thing I love more  
Than herb is the bird  
But my luck's kinda fucked  
It's a wonder that I flirt

But I do and I will  
'Cause I'm still just a nerd  
Ever been left behind
