

Mc Chris, Yacht Birds

Is she dope? Yep, ass in full effect, she walks into the room and all the guys come down with strep

Only thing I love more
Than herb is the bird
But my luck's kinda fucked
It's a wonder that I flirt

But I do and I will
'Cause I'm still just a nerd
Ever been left behind
Let me hear ya say word

Only thing I love more
Than herb is the bird
But my luck's kinda fucked
It's a wonder that I flirt

But I do and I will
'Cause I'm still just a nerd
Ever been left behind
Let me hear ya say word

She's a go getter, dressed in sweater, we watched Blackhawk down together, her name's Heather,

Only thing I love more
Than herb is the bird
But my luck's kinda fucked
It's a wonder that I flirt

But I do and I will
'Cause I'm still just a nerd
Ever been left behind
Let me hear ya say word

Only thing I love more
Than herb is the bird
But my luck's kinda fucked
It's a wonder that I flirt

But I do and I will
'Cause I'm still just a nerd
Ever been left behind
Let me hear ya say word

Her name was LB
she was an actress
I filled up her
spaces like madlibs

way above average
she was just a sad kid
so I couldn't help
but give the girl my address

she lived in Texas
like to get messed up
like to tease the boys
so she always got dressed up

like to get in fights
with the truckers at the rest stops
she was top notch
and her bod was the best part

fan of mine, summer time
dropping me a line
sounded kinda cute
couldn't help but reply

chilling in her pool
squinting at the sky
cell phone rings
MC Chris says hi

soon we're talking everyday
flirtin' up a storm
plans to road trip
I say word is born

and my mind's set on porn
and I think I'm gonna score
I get down on all fours
start scrubbing all the floors

then I get all nervous
that an accident is imminent
never have a chance to relax
and get intimate

arrives at my drive
I sigh, get all shy
so we all get all high
walk down to Little Five

do a shot, buy some pot
take a seat on the street
she's cute and she's nice
and she's hot and she's sweet

and she makes the first move
'cause I'm set on defeat
then I tongue lap her flaps
'til she snaps and she screams

and she just leaves
and I'm kinda relieved
no OD's, VD's
hearts on my sleeve

not a stalker just a talker
ass tight as weave
once a newbie now a groupie
double clickin' on me

Only thing I love more
Than herb is the bird
But my luck's kinda fucked
It's a wonder that I flirt

But I do and I will
'Cause I'm still just a nerd
Ever been left behind
Let me hear ya say word

Only thing I love more
Than herb is the bird
But my luck's kinda fucked
It's a wonder that I flirt

But I do and I will
'Cause I'm still just a nerd
Ever been left behind
Let me hear ya say word
