

Mc Erik And Barbara, Let The Party Go On

I feel so lonely
When I'm here alone
I will call my friends
So I will call my friends
To be around
So let the party go on
So let the party go on
So let the party go on

Come on you all
Let rock the party

Come on you all
Let rock your body
Come on you all
Let rock the party
Come on you all
Let start it

I feel it all around
'cause music is over my mind
I feel it all around
