

Mc Mario, Over And Over

Over and over i see your face
Over and over along for your embrace
can't stop thinkin' about you
thinkin' about you
over and over

lookin' at you,lookin' at me
the way i feel set's me free
don't let this feeling pass you by
loving intestacation makes me high
it'll never be the same
you know i don't even know his name

Over and over i see your face
Over and over along for your embrace
can't stop thinkin' about you
thinkin' about you
over and over

when would it sunk
when would it end
you too shy, we can be friends
won't let your feelings show
cause now i will never i've got to know
it'll never be the same
you know i don't even know his name

Over and over i see your face
Over and over along for your embrace
can't stop thinkin' about you
thinkin' about you
over and over

Over and over i see your face
Over and over along for your embrace
can't stop thinkin' about you
thinkin' about you
over and over

it'll never be the same
you know i don't even know his name

Over and over i see your face
Over and over along for your embrace
can't stop thinkin' about you
thinkin' about you
over and over

Over and over i see your face
Over and over along for your embrace
can't stop thinkin' about you
thinkin' about you
over and over
