

McFly, Don't Know Why

One by one
Drinks are gone
Do I have to stay
Hate the sound
Of one more pound
As it rolls away
Why did I need your proof
When I knew the truth

[Chorus]
And I don't know why
I just let it slip by
Me all the time
I just wish you had tried

I don't want to know your game
Let alone her name
No matter what
You say to me
We are not the same

Why do you make me cry
Try to justify
To right the wrong
Of my mistakes
Cause my heads held high

[Chorus]
And I don't know why
I just let it slip by
Me all the time
I just wish you had tried

[Chorus]
And I don't know why
I just let it slip by
Me all the time
I just wish you had tried

Dreams we have as kids all fade away
Now its not the same

[guitar solo]

[Chorus]
And I don't know why
I just let it slip by
Me all the time
I just wish you had tried

[Chorus]
And I don't know why
I just let it slip by
Me all the time
I just wish you had tried
