

McFly, Party Girl

The clock hit 12 as she entered the room
But if looks could kill then we all would be doomed
After just one kiss you're not able to move
From her venomous lips and her poison perfume

She started swaying so sexy and looking at me and it got me
Caught in her mind control
This place is prison I'm
Chained up I give up and I'm at her mercy
She wouldn't let me go

She said
She likes to dance all by herself coz she's a party girl
She don't care for nobody else, she's in her own world
I love this little party girl
I love this little party girl
She's such a little party girl

I gotta leave this room coz it's starting to spin
But there's no escape
From this mess that I'm in
She can't resist the temptation to sin
So pull your collar up before she sinks her teeth in

She started swaying so sexy and looking at me and it got me
Caught in her mind control
This place is prison I'm
Chained up I give up and I'm at her mercy
She wouldn't let me go

She said
She likes to dance all by herself coz she's a party girl
She don't care for nobody else, she's in her own world
I love this little party girl
I love this little party girl
She's such a little party girl

I love this little party girl

She likes to dance all by herself coz she's a party girl
She don't care for nobody else, she's in her own world
I love this little party girl
I love this little party girl
She's such a little party girl
