

Me And My, Every Single Day

My sun don't shine anymore
Cause you're not in my life
I was so blind but now I know
Your love's still playing with my mind

Chorus:
Every single day you were my sweetheart
Every single day you touched my sweet heart
Now I know for sure that you're the one
My feelings are still the same

Touch you don't call anymore baby
I pray that you will find
The secret key to my door
I'm waiting baby need to be mine

Chorus

Tell me why it is so hard to go on without you
Tell me why I feel alone, cold, sad and low without you
Can't me try to make it work, give me a chance to love you
Baby let me be your fantasy, your only dream

Chorus
