Me And My, Every Single Day

My sun don't shine anymore Cause you're not in my life I was so blind but now I know Your love's still playing with my mind

Chorus:

Every single day you were my sweetheart Every single day you touched my sweet heart Now I know for sure that you're the one My feelings are still the same

Touch you don't call anymore baby I pray that you will find The secret key to my door I'm waiting baby need to be mine

Chorus

Tell me why it is so hard to go on without you Tell me why I feel alone, cold, sad and low without you Can't me try to make it work, give me a chance to love you Baby let me be your fantsy, your only dream

Chorus
