

Meat Loaf, Standing On The Outside

I ain't livin' here no more
I ain't even keepin' score
It's too late to change, it's over
I'm drowned in a sea of tears

Nothin' I can say to you makes any difference
There ain't nothin' I can do
None of it's makin' sense

[Chorus:]
Standing on the outside
Lookin' in at you
Standing on the outside
I'm running out of time

I'm so tired of being alone
In a world that feels so cold
There's got to be a light that I can find
There's got to be a soul somewhere that shines for me

Now I don't want to live without love anymore
I just wanna live my life
Love's gonna open up the door
Show me it's light again

[Chorus]

Nothin' I can say to you makes any difference
There ain't nothin' I can do
None of it's makin' sense

[Chorus]
