

# Meat Loaf, Why Isn't That Enough

I don't know how I can do this  
What am I supposed to say?  
You have been my dream for so long  
Now that dream is slipping away  
I don't want to let you go  
It's only that I know I must  
I can't hardly get the words out  
Baby is this the end of us?  
You know that I want you  
You know that I need you baby  
You know that I love you  
So why isn't that enough?  
I've been sleeping in the daytime  
I've been weeping at the scene  
Wishing you would haunt me  
And you would tell me this was all a dream  
Wishing you were here beside me  
What I would give to hold you tight  
But nothing I can do or say  
Will change the truth tonight  
You know that I want you  
You know that I need you baby  
You know that I love you  
So why isn't that enough?  
If I want you  
And I need you  
And I love you  
And I want that to be enough  
Yes I want you  
And I need you  
And I love you  
And I want that to be enough  
Yes I want you  
And I need you  
And I love you  
And I want that to be enough  
I don't want to let you go  
It's only that I know I must  
I can't hardly get the words out  
Baby is this the end of us?  
You know that I want you  
You know that I need you baby  
You know that I love you  
So why isn't that enough?  
Why isn't that enough?  
I wish it was enough
