

# Meat Shits, Would You Please Die?

You made my life a living hell  
It began with the ring of a bell  
Tortured me with your ego bullshit  
My only escape was through bong-hits

But that was then and this is now  
Revenge for your actions I now seek  
Your life will soon catch up with you  
In the form of my rage...

I find you leading the life I expect  
Brutally murder you with no remorse  
Chop up your corpse to feed my dogs  
Now I must kill another from my past...
